EXECUTIVE SUMMARY

On June 30, 2016, Interim President Martha Piper approved amendments to the Procedures to Policy #82. Policy #82 and related Procedures establish eligibility and extent of travel and relocation assistance from a central fund for the hiring or internal transfer of faculty members and senior management staff. The changes to these Procedures increase the maximum amount that will be reimbursed from a central fund to relocating faculty and senior staff members. The Procedure amendments will not require additional resources for the central fund.

Pursuant to Policy #1 Administration of Policies, procedures may be amended by the President provided the new procedures conform to the approved policy and they are reported at the next meeting of the Board of Governors. This report is being provided to the Board of Governors in compliance with Policy #1.

If this item was previously presented to the Board, please provide a brief description of any major changes since that time.	Policy #82 was approved in 1980 and last amended in 2007. The 2007 amendment resulted in an increase to a centrally-funded account for the reimbursement of relocating faculty and senior staff members. It has now been nine years since Policy #82 and related Procedures have been amended, and the maximum amounts available for reimbursement from the central fund have not been increased during that time. As such relocation funding has fallen behind inflationary costs, as well as funding available for new hires at comparator universities.

CONSULTATION Relevant Units, Internal & External Constituencies	These Procedure amendments are in response to ongoing requests from relocating faculty members, as well as their faculties. Strong and consistent feedback on this issue has been obtained through regular surveys of faculty members who have relocated to UBC under this Policy. The consistent response has been that the maximum amount allowable for reimbursement from the central fund is insufficient to cover the actual costs of relocation. Additionally, administrators from hiring faculties have requested an increase to be more competitive in attracting new faculty.
