1. Approval of Minutes	<b>DECISION REQUESTED</b>
2. Student Health and Wellbeing	This update to the Board outlines the guiding vision for student health and wellbeing services, provides an overview on emerging institutional responses and best practices, summarizes progress toward supporting student health and wellbeing.
3. Needs-Based Student Financial Aid at UBC	Changes to both federal and provincial student financial assistance have increased the gap between what is available through government grants and loans and students' assessed need. The change in policy without additional government resources has put pressure on the UBC Bursary funding; as a result, the Administration examined the model used for assessing bursary eligibility. A new and more equitable allocation model has been developed and approved by the Executive. The new model will be implemented in 2019S.  The new allocation model adheres to Policy 72 Access to the University of British Columbia.
4. Student Diversity Initiative Update	The Report provides a summary of Student Diversity Initiative (SDI) activities to date, and discusses next steps in expanding the systems-based approach to widen the reach and impact to support diverse students.
