NOTABLE ITEMS DISCUSSED

- Stadium Road Neighbourhood

The Working Group received a presentation providing an overview of previous and current planning underway for the Stadium Road neighbourhood, and discussed the relationship between density and UBC's capacity to provide the equity required to construct additional faculty and staff housing.

Dr. Murray McCutcheon, attending at the invitation of the Committee, spoke of the ongoing concerns of community residents with regard to proposed density and building heights.

The Working Group asked the Administration to provide an analysis of the implications of different density levels for the University's ability to expand UBC rental housing.
