<b>SUPPORTED BY</b>	Michael White, Associate Vice-President Campus + Community Planning

---

#### EXECUTIVE SUMMARY

Board of Governors' Policy #GA6 'Naming' establishes policies and procedures for approving names for campus facilities. The President forwards Class 1 facility naming recommendations from the Naming Committee to the Board of Governors for approval. This report conveys the recommendations of the May 14, 2020 meeting of the Naming Committee for Board approval.

The Naming Committee may recommend that a facility be named to reflect its use, to honour someone associated with the University, or to recognize a donor.

On May 14, 2020, the Naming Committee considered the following Class 1 Facility requested by UBC Energy & Water Services:

- a) **UBC Water Pump Station** – a new stand-alone pump station facility located at University Boulevard and Education Road on the Vancouver Campus.

On May 14, 2020, the Naming Committee considered the following Class 1 Facility Discontinuation requested by Development and Alumni Engagement:

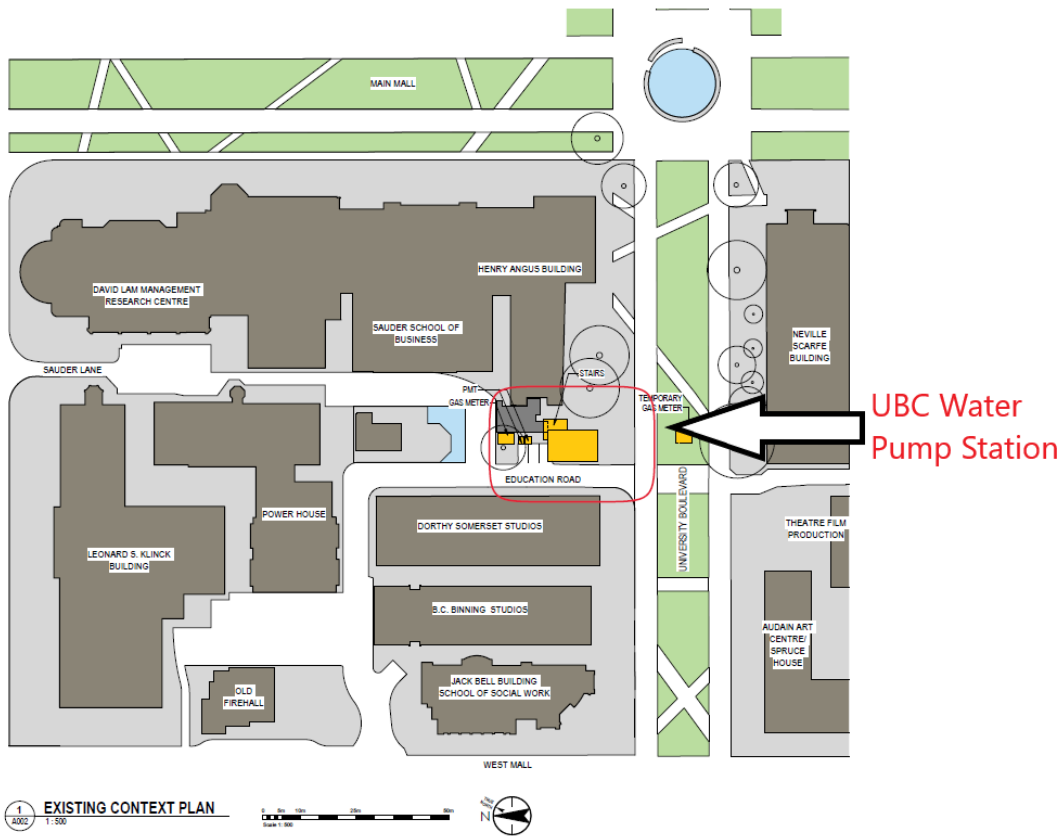

- b) **D.H. Copp Building** – The D.H. Copp Building is scheduled for demolition in July 2020. Its current site will be the home of the new School of Biomedical Engineering (SBME). This request for discontinuation of the name is in accordance with Development and Alumni Engagement procedures that define the name in relation to the life of the building and Naming Policy GA6.

The Naming Committee considered the naming requests and resolved to recommend the proposals to the President for referral to the Board of Governors for approval.
