SUBMITTED TO	PEOPLE, COMMUNITY AND INTERNATIONAL COMMITTEE
MEETING DATE	February 3, 2021
SESSION CLASSIFICATION	Recommended session criteria from Board Meetings Policy: OPEN
REQUEST	For information only - No action requested
LEAD EXECUTIVE	Andrew Szeri, Provost and Vice-President Academic, UBC Vancouver
SUPPORTED BY	Lesley Cormack, Deputy Vice-Chancellor & Principal, UBC Okanagan Ananya Mukherjee Reed, Provost and Vice-President Academic, UBC Okanagan Gail Murphy, Vice-President Research and Innovation

PRIOR SUBMISSIONS

The subject matter of this submission is a recurring item for information at each Board meeting.

EXECUTIVE SUMMARY

At every meeting, the Board receives a list of recent notable distinctions and recognitions that have been received by UBC faculty members -- for their teaching, scholarly accomplishments and community service -- ranging from very prestigious national and international awards to significant internal awards at UBC. In addition, the Board receives profiles of three of these award winners.

UBC faculty profiled at this meeting and on the Board of Governors website:

- Claire Kremen (Research category)
Professor and President's Excellence Chair in Biodiversity
Institute for Resources, Environment and Sustainability
Faculty of Science
- Karthik Pattabiraman (Teaching category)
Professor, Department of Electrical and Computer Engineering
Faculty of Applied Science
- Elizabeth Saewyc (Service category)
Professor and Director, School of Nursing
Faculty of Applied Science

SUPPLEMENTAL MATERIALS (optional reading for Governors)

1. Profiles of the above scholars
2. List of Notable Distinctions: *Research *Teaching *Service

Claire Kremen

Professor and President's Excellence Chair in Biodiversity
Faculty of Science

Volvo Environment Prize Volvo Environment Prize Foundation

Congratulations to Professor Claire Kremen, who was honoured with the Volvo Environment Prize by the Volvo Environment Prize Foundation. Considered one of the scientific world's most respected environmental awards, Kremen is recognized for her world-class research on how humanity can feed itself while also protecting biodiversity.

Professor Kremen's work on diversified farming systems and conservation has helped us to understand how the increasingly globalized food system affects biodiversity, sustainability and equity. A key focus of her research work involves changing working lands – agriculture, forestry and ranches – to more diverse landscapes to preserve biodiversity.

Before coming to UBC, Kremen held faculty appointments at Princeton University and University of California, Berkeley, where she also founded the Center for Diversified Farming Systems and the Berkeley Food Institute. Prior to those appointments, she worked for over a decade for the Wildlife Conservation Society and the Xerces Society, designing protected area networks and conducting biodiversity research in Madagascar, a biodiversity hotspot.

Karthik Pattabiraman

Professor, Electrical and Computer Engineering
Faculty of Applied Science

UBC Killam Award for Excellence in Mentoring

Professor Karthik Pattabiraman received his MS and PhD from the University of Illinois at Urbana-Champaign (UIUC) in 2004 and 2009 respectively. Dr. Pattabiraman joined UBC in 2010 after spending a post-doctoral year at Microsoft Research (Redmond). He has also worked at IBM Research and Los Alamos National Labs, USA.

Dr. Pattabiraman teaches both undergraduate and graduate course in topics that include web applications, software engineering and the Internet of Things. His research specialties lie in fault-tolerant and secure systems, software engineering, and compilers. He was a recipient of the William C. Carter award for the best PhD thesis in dependability in 2008, and the Rising Star in Dependability award in 2020, both from the IEEE Technical committee on Fault Tolerant Computing (TC-FTC). He has also received a Killam Research prize and a Killam Research fellowship from UBC, and a distinguished alumnus award from the University of Illinois (UIUC).

Prof. Pattabiraman has received the UBC Killam Award for Excellence in Mentoring. His students describe him as an outstanding coach and mentor who spares no effort to cultivate their own interests and potential and to support their growth and success as scholars. He makes conscious efforts to foster a culture of excellence, openness, respect and collegiality with and among his students. He understands the ability, passions, personality, and career plan of each student, what makes them motivated and productive, and encourages them to give back to society.

Elizabeth Saewyc

Professor and Director, School of Nursing
Faculty of Applied Science

2020 Sexual Health Champion Options for Sexual Health

Professor Elizabeth Saewyc completed her BSN(hons) at the University of Minnesota, and her MN and PhD at the University of Washington. She joined the UBC School of Nursing in 2004 as an Associate Professor, was promoted to Full Professor in July, and was appointed Director of the School in 2017. In addition to her administrative and academic work in Nursing, she is Executive Director of the Stigma and Resilience among Vulnerable Youth Centre (SARAVYC) at UBC, among other notable affiliations.

Prof. Saewyc is an internationally recognized leader in research about marginalized adolescents. She regularly consults for the World Health Organization and other agencies. The Sexual Health Champion award recognizes Dr. Saewyc and the SARAVYC team's longstanding research, education, and advocacy around young people's sexual health, especially for LGBTQ2S youth. SARAVYC's research focuses on how stigma and trauma influence health, and what protective factors and interventions can foster resilience and health equity.

In 2019 Dr. Saewyc was named to the Sigma Theta Tau International Nurse Honour Society Nurse Researcher Hall of Fame, the only researcher from Canada among 22 others inducted to the Hall of Fame that year. The award acknowledged Dr. Saewyc's extensive research in nursing and noted that she has "achieved significant and sustained national or international recognition and [her] research has improved the profession and the people it serves."
