PRIOR SUBMISSIONS

The subject matter of this submission is a recurring item for information at each Board meeting.

EXECUTIVE SUMMARY

At every meeting, the Board receives a list of recent notable distinctions and recognitions that have been received by UBC faculty members -- for their teaching, scholarly accomplishments and community service -- ranging from very prestigious national and international awards to significant internal awards at UBC. In addition, the Board receives profiles of three of these award winners.

UBC faculty profiled at this meeting:

- Mary De Vera (Teaching category)
Associate Professor
Faculty of Pharmaceutical Sciences
- Annette Henry (Service category)
Professor, Department of Language and Literacy Education
Faculty of Education
- Hannah Wittman (Research category)
Professor
Faculty of Land & Food Systems

SUPPLEMENTAL MATERIALS (optional reading for Governors)

1. Profiles of the above scholars
2. List of Notable Distinctions: *Research *Teaching *Service

Mary De Vera

Associate Professor
Faculty of Pharmaceutical Sciences

UBC Killam Award for Excellence in Mentoring

Congratulations to Mary De Vera for being recognized with a Killam Award for Excellence in Mentoring. Professor De Vera is known for supportively inspiring individuals to reach their full research and academic potential. Her students describe her as a hands-on and enthusiastic teacher who recognizes each student's needs.

Professor De Vera completed a BSc degree in biochemistry at UBC and MSc and PhD degrees in health care and epidemiology from the UBC School of Population and Public Health. A Canada Research Chair in Medication Adherence, Utilization and Outcomes, she is an expert in population studies of treatment adherence using administrative databases. She is also an expert in conducting patient-oriented research aimed at improving outcomes of individuals living with chronic conditions, namely arthritis and cancer, across the spectrum of disease.

Professor De Vera has received a variety of awards and grants throughout her academic career including a Michael Smith Scholar Award and the Arthritis Society New Investigator Award.

Annette Henry

Professor, Language and Literacy Education
Faculty of Education

100 Accomplished Black Canadian Women

Annette Henry is a Professor and former department head in the Department of Language and Literacy Education and is cross-appointed to the Institute for Race, Gender, Sexuality and Social Justice. She formerly held the David Lam Chair in Multicultural Education in the Faculty of Education. She is currently a scholar at the Peter Wall Institute for Advanced Studies.

Professor Henry's scholarship examines race, class, language, gender and culture in socio-cultural contexts of teaching and learning in classrooms and especially in the lives of Black students and Black women teachers' practice in Canada, the U.S. and the Caribbean. She is currently working on a five-year SSHRC-funded study, "This is the puzzle I've been trying to solve: A longitudinal study of the challenges and experiences of Blacks in Vancouver". She is Project Lead for "UBC Black Futures 2022", a monthly university preparation program for Black youth in grades 10-12 from 5 school districts in the lower mainland, part of a national longitudinal five-university collaboration to create a research and data hub on black youth and education.

Professor Henry is the recipient of several awards including the Canadian Association of University Teachers Equity Award and the Outstanding Contributions to Gender Award from the American Educational Research Association. We congratulate her for being named in the 2022 book of 100 Accomplished Black Canadian Women.

Hannah Wittman

Professor, Land and Food Systems

Sustainability Award **Association for the Advancement of Sustainability in Higher Education**

Congratulations to Professor Hannah Wittman, who won a Sustainability Award from the Association for the Advancement of Sustainability in Higher Education which recognizes the individuals and organizations leading the higher education sustainability movement. With the help of volunteer judges from the community, the awards program raises the visibility of high-impact sustainability projects, pioneering research, and student leadership. Professor Wittman's research paper "Can public universities play a role in fostering seed sovereignty?" won in the Engagement category for its position on strengthening links between public research institutions and grassroots seed movements to build a more resilient seed and food system.

Professor Wittman's research projects examine the ways that the rights to produce and consume food are contested and transformed through struggles for agrarian reform, food sovereignty, and agrarian citizenship. Her areas of focus include community-based research on farmland access, transition to organic agriculture, and seed sovereignty in British Columbia, agroecological transition and the role of institutional procurement in the transition to food sovereignty in Ecuador and Brazil, and the role that urban agriculture and farm-to-school nutrition initiatives play in food literacy education.

She leads UBC's Research Excellence Cluster in Diversified Agroecosystems, and served as Academic Director of the Centre for Sustainable Food Systems at UBC Farm from 2015 to 2020. She obtained her PhD in 2005 from Cornell, and joined UBC in 2012.

MAR 2022	SCIENCE - Mathematics	Edelstein-Keshet, Leah – Professor	Recipient of the 2022 SIAM John von Neumann Prize, the highest honor and flagship lecture of Society for Industrial and Applied Mathematics (SIAM). Received in recognition of her far-reaching contributions to mathematical biology. Her work on cellular biophysics as well as collective behavior of organisms has had enormous impact in deciphering biological processes.
MAR 2022	SCIENCE - Mathematics	Pramanik, Malabika – Professor	Invited as a speaker to The International Congress of Mathematicians 2022 (ICM 2022) in St Petersburg, Russia. ICM is the largest and most significant conference on pure and applied mathematics as well as one of the world's oldest scientific congresses.
MAR 2022	SCIENCE - Physics & Astronomy	Raussendorf, Robert – Professor	Awarded the 2021 CAP-CRM Prize in Theoretical and Mathematical Physics by the Canadian Association of Physicists (CAP) and the Centre de recherches mathématiques (CRM). The award recognizes research excellence in the fields of theoretical and mathematical physics. Prof. Raussendorf is receiving the award for his "eminent contributions to the theory of quantum computing, including groundbreaking work on measurement-based or 'one-way' quantum computing, fault-tolerant quantum computing, and computationally universal quantum phases of matter."
MAR 2022	SCIENCE - Physics and Astronomy	Hardy, Walter - Professor Emeritus	Appointed a Member of the Order of Canada. The Order of Canada recognizes outstanding achievement, dedication to the community and service to the nation. Dr. Hardy was inducted for his pioneering contributions to the fields of particle physics, materials science and high-temperature superconductivity, as a distinguished theorist and experimentalist.

MAR 2022	SCIENCE - Statistics	Nolde, Natalia - Associate Professor	Won the UBC/PIMS Mathematical Sciences Young Faculty Award, which was created to recognize UBC researchers for their leading edge work in mathematics or its applications in the sciences.
MAR 2022	SCIENCE - Statistics	Campbell, Trevor - Assistant Professor	Received the 2021 Blackwell-Rosenbluth Award, which honours noteworthy junior researchers in different areas of Bayesian statistics.
MAR 2022	SCIENCE - Zoology	Schulte, Patricia - Professor	Awarded the FEJ Fry Medal, from the Canadian Society of Zoologists. The Fry Medal is given to a Canadian Zoologist who has made an outstanding contribution to knowledge and understanding of an area in zoology.
MAR 2022	SCIENCE - Zoology	Schulte, Patricia - Professor	Received the Krogh Award, from the American Physiological Society. The August Krogh Distinguished Lectureship of the APS Comparative and Evolutionary Section (CEPS) sponsored by Novo Nordisk Foundation is awarded to a distinguished scientist who has made major and meritorious contributions to the scientific areas represented by the APS Comparative and Evolutionary Physiology Section. It is the most prestigious award of the section.
MAR 2022	SCIENCE - Zoology	Matthews, Benjamin - Assistant Professor	Recipient of Scholar Award from Michael Smith Foundation for Health Research BC. These awards will support BC's next generation of health researchers in developing their leading-edge research programs to address important health priorities and improve the health of British Columbians.

BoG Date	Faculty - Department	Name	Award/Distinction
DEC 2021	SCIENCE - Institute for the Oceans and Fisheries	Sumaila, Rashid - Professor	SSHRC Impact Award in the Partnership category, for the OceanCanada Partnership project whose goal is to understand and address threats facing Canada's Arctic, Atlantic, and Pacific coastal-ocean regions and seek opportunities to develop a shared vision for the future of Canada's oceans – one that promotes the health and well-being of people living on coasts as well as the marine environment.
