# OUR PRIORITIES

What matters to UBC students  
about Campus Vision

# NON-NEGOTIABLES FOR FULL SUPPORT

## INCREASE STUDENT BED TARGETS

The AMS calls for a greater increase in the number of student housing beds being allocated in the Campus Vision process to at least match previous growth rates. To our knowledge, that would be somewhere between 5,500 to 6,000 new beds in the next 10 years.

## COMMITMENT AND TIMELINE FOR RAPID TRANSIT

To alleviate housing and commuter financial pressures, the AMS urges the development of two SkyTrain stations to UBC and further investments in new transit routes to support new community developments.

## LECTURE CAPTURE TECHNOLOGY

The AMS urges UBC to commit to equipping 100% of all current and developing learning spaces with lecture capture technology.

# THANK YOU

We look forward to continuing our work with the UBC Board of Governors in our shared mission to continue to make our campus one of the best in the world.
