

SUBJECT	POLICY PRIORITIES – GOVERNANCE COMMITTEE
SUBMITTED TO	GOVERNANCE COMMITTEE
MEETING DATE	September 12, 2024
SESSION CLASSIFICATION	Recommended session criteria from Board Meetings Policy: OPEN
REQUEST	For information only - No action requested
LEAD EXECUTIVE	Hubert Lai, K.C., University Counsel
SUPPORTED BY	Matthew Murray, Legal Counsel

PRIOR SUBMISSIONS

The subject matter of this submission has been considered previously by the Governance Committee in [November 2022](#) (OPEN SESSION).

EXECUTIVE SUMMARY

With a \$3.8 billion annual operating budget, 22,000 employees, and 73,000 students, UBC is a complex organization with a myriad of diverse operational requirements. A cornerstone to its efficient operations is a robust set of Board Policies to regulate the conduct of its faculty, staff and students. This is an update on the current state of Board Policies and provides a prioritized list of upcoming policies for which proposals are to be developed.

Board Policies are regulatory instruments that direct the plans, decisions and actions of UBC faculty, staff and students. Accordingly, maintaining relevant and up-to-date Board Policies is essential. Developing thorough, well-considered policy proposals is far more than a drafting exercise. The process normally includes a number of important steps, including environmental surveys, drafting, committee work, community consultation, and Board approval. Given the time and resources necessary to complete these steps, developing a policy proposal typically takes at least six months. Please see Supplemental Materials 1 for a flowchart describing the process.

Since the Board of Governors normally transacts regular business at only four meetings per year and the practice is to undertake community consultation for most policies, appropriate prioritization of policies is critical.

Overall Status

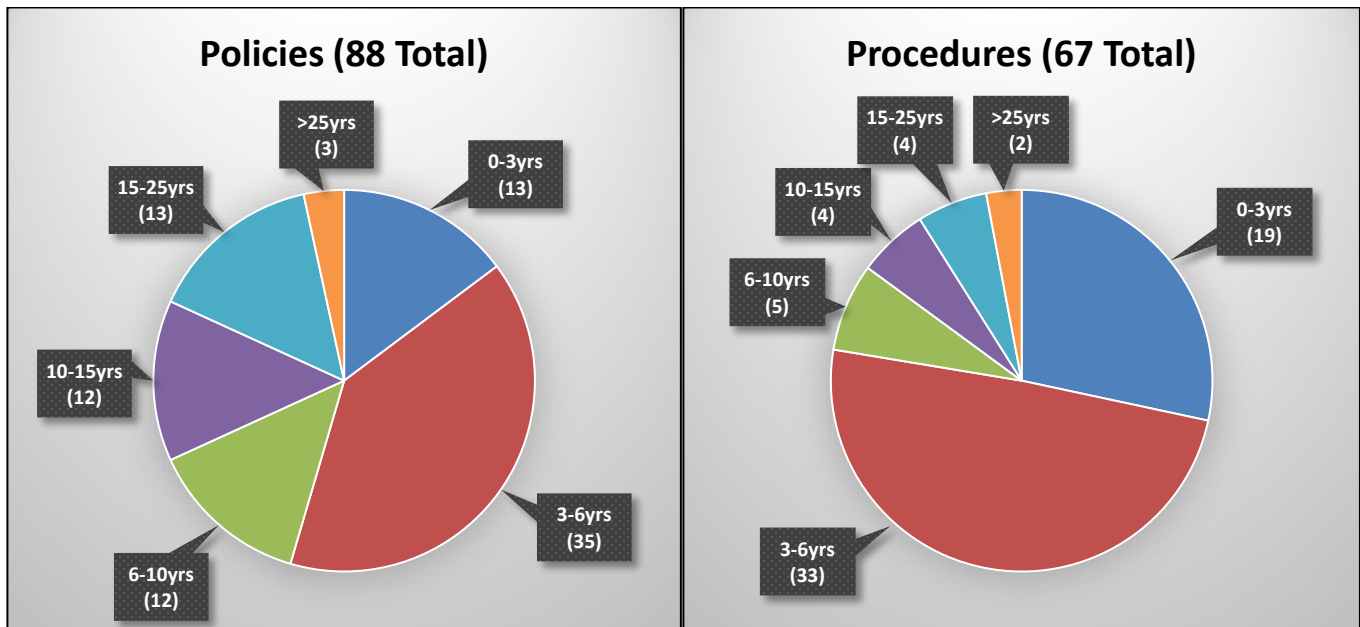

UBC has a total of 88 Board Policies (including the PIDA Policy (SC19) that was approved by the Board in June and which will come into effect in December) which govern the operations and management of the University. This is a significant reduction in the volume of Board Policies, which once numbered 125. In addition, three Board Policies are being considered for repeal by the spring of 2026. By keeping the scope of the Board Policies focused and keeping the drafting as concise as possible, the Board Policies themselves have been also considerably reduced in overall length. Having a more focused collection of policies improves the ability of users to familiarize themselves with the Board Policies, understand what they need to do, and keep up to date on ongoing changes. It also streamlines the process of reviewing and ensuring the ongoing currency and relevancy of the Board’s Policies.

Over the previous five calendar years, the Board has received an average of 11 submissions per year from the Office of the University Counsel regarding policy proposals. Of these 11 submissions per year, an average of 5 submissions have been for the Board’s information and input prior to community consultation and an average of 6 submissions have been for the Board’s approval. (This does not include the average of 5 submissions per year to report on changes to Procedures that have been approved by the President.)

The Board’s portfolio of Policies continues to be current and meet the ongoing needs of the University. All of the Board Policies and Procedures have been reviewed biennially. Due to the regularity of these reviews, any Policies or Procedures that require changes are identified and attended to in a timely manner. As a result, during each review, a relatively small proportion of the Policies is identified as requiring new changes. While all of the Board Policies were just reviewed in the summer of 2024 (and previously in 2022, 2020, etc.), many Policies and Procedures have not required changes. As at September 2024, the average times since the Policies and Procedures were last changed are 8.9 years and 6.2 years, respectively. The following table shows the distribution of Policies and Procedures since they were last changed:

0-3 years since last changed:	13 Policies and 19 Procedures
3-6 years since last changed:	35 Policies and 33 Procedures
6-10 years since last changed:	12 Policies and 5 Procedures
10-15 years since last changed:	12 Policies and 4 Procedures
15-25 years since last changed:	13 Policies and 4 Procedures
More than 25 years since last changed:	3 Policies and 2 Procedures

The following charts illustrate the same information graphically:

Policy Priorities

For each Board Policy, responsibility for Board oversight has been delegated to the appropriate Board Committee. In addition, responsibility for the administration of each Board Policy has been assigned to one or more members of the University Executive who are identified as the “Responsible Executive” for the Board Policy.

The Office of the University Counsel maintains a file of input received from the community and other sources about each Board Policy and uses this information to help prioritize policy work. In addition, every two years, a comprehensive redevelopment prioritization review has been undertaken with all of the members of the UBC Executive Team and their portfolios. That biannual Executive review was most recently undertaken in the summer of 2024.

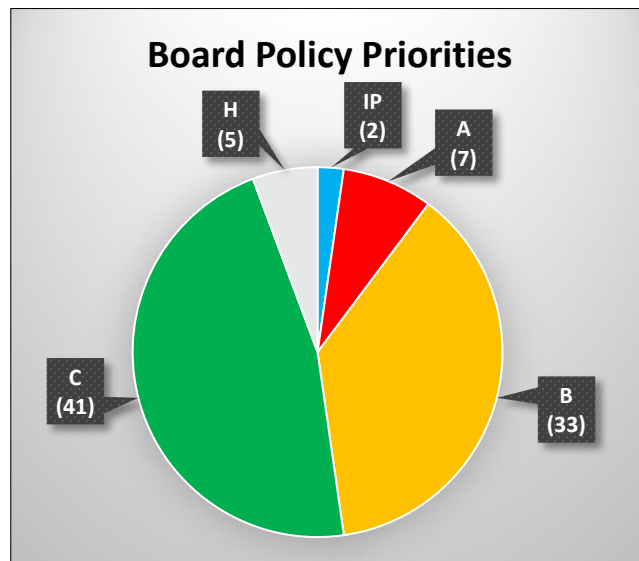

All of the input received was considered and incorporated into the consolidated policy priorities list set out in Supplemental Materials 2, which includes the date when each Policy and any associated Procedures were last changed, and a priority rating that reflects the urgency of developing a policy proposal. For the ease of reference of the Governance Committee, a list of the policies that have been assigned to this Committee has been extracted from Supplemental Materials 2 and is set out in Supplemental Materials 3.

That policy priorities list is a working document only and is subject to change on an ongoing basis. Executives and/or Board Committees may request that adjustments be made to the priorities of a particular policy for which they are responsible.

Out of the Board’s 88 Policies, the distribution of priority ratings is as follows:

Priority IP (Currently in progress):	2
Priority A (Urgent and requires immediate attention):	7
Priority B (Out of date but not causing operational or other problems):	33
Priority C (No issues have been identified):	41
Priority H (On hold pending further direction from the Responsible Executive):	5

The distribution amongst these priority ratings is shown graphically in the following pie chart:

The following table shows the number of policies that have been assigned to each Board Committee listed by their priority status.

Responsible Board Committee	IP Policies	Priority A Policies	Priority B Policies	Priority C Policies	On-Hold Policies	Total
Audit	0	2	5	3	1	11
Employee Relations	1	0	13	8	2	24
Executive	1	1	2	7	0	11
Finance	0	0	4	6	2	12
Governance	0	0	0	2	0	2
Learning & Research	0	4	6	7	0	17
Property	0	0	3	8	0	11
TOTAL	2	7	33	41	5	88

Outlook

In the 2024 calendar year, it is expected that proposals for 4 Board Policies will be submitted to the Board for information and input prior to community consultation and that proposals for 5 Board Policies will be submitted to the Board for approval.

In the 2025 calendar year, it is expected that proposals for a similar number of Board Policies will be submitted to the Board.

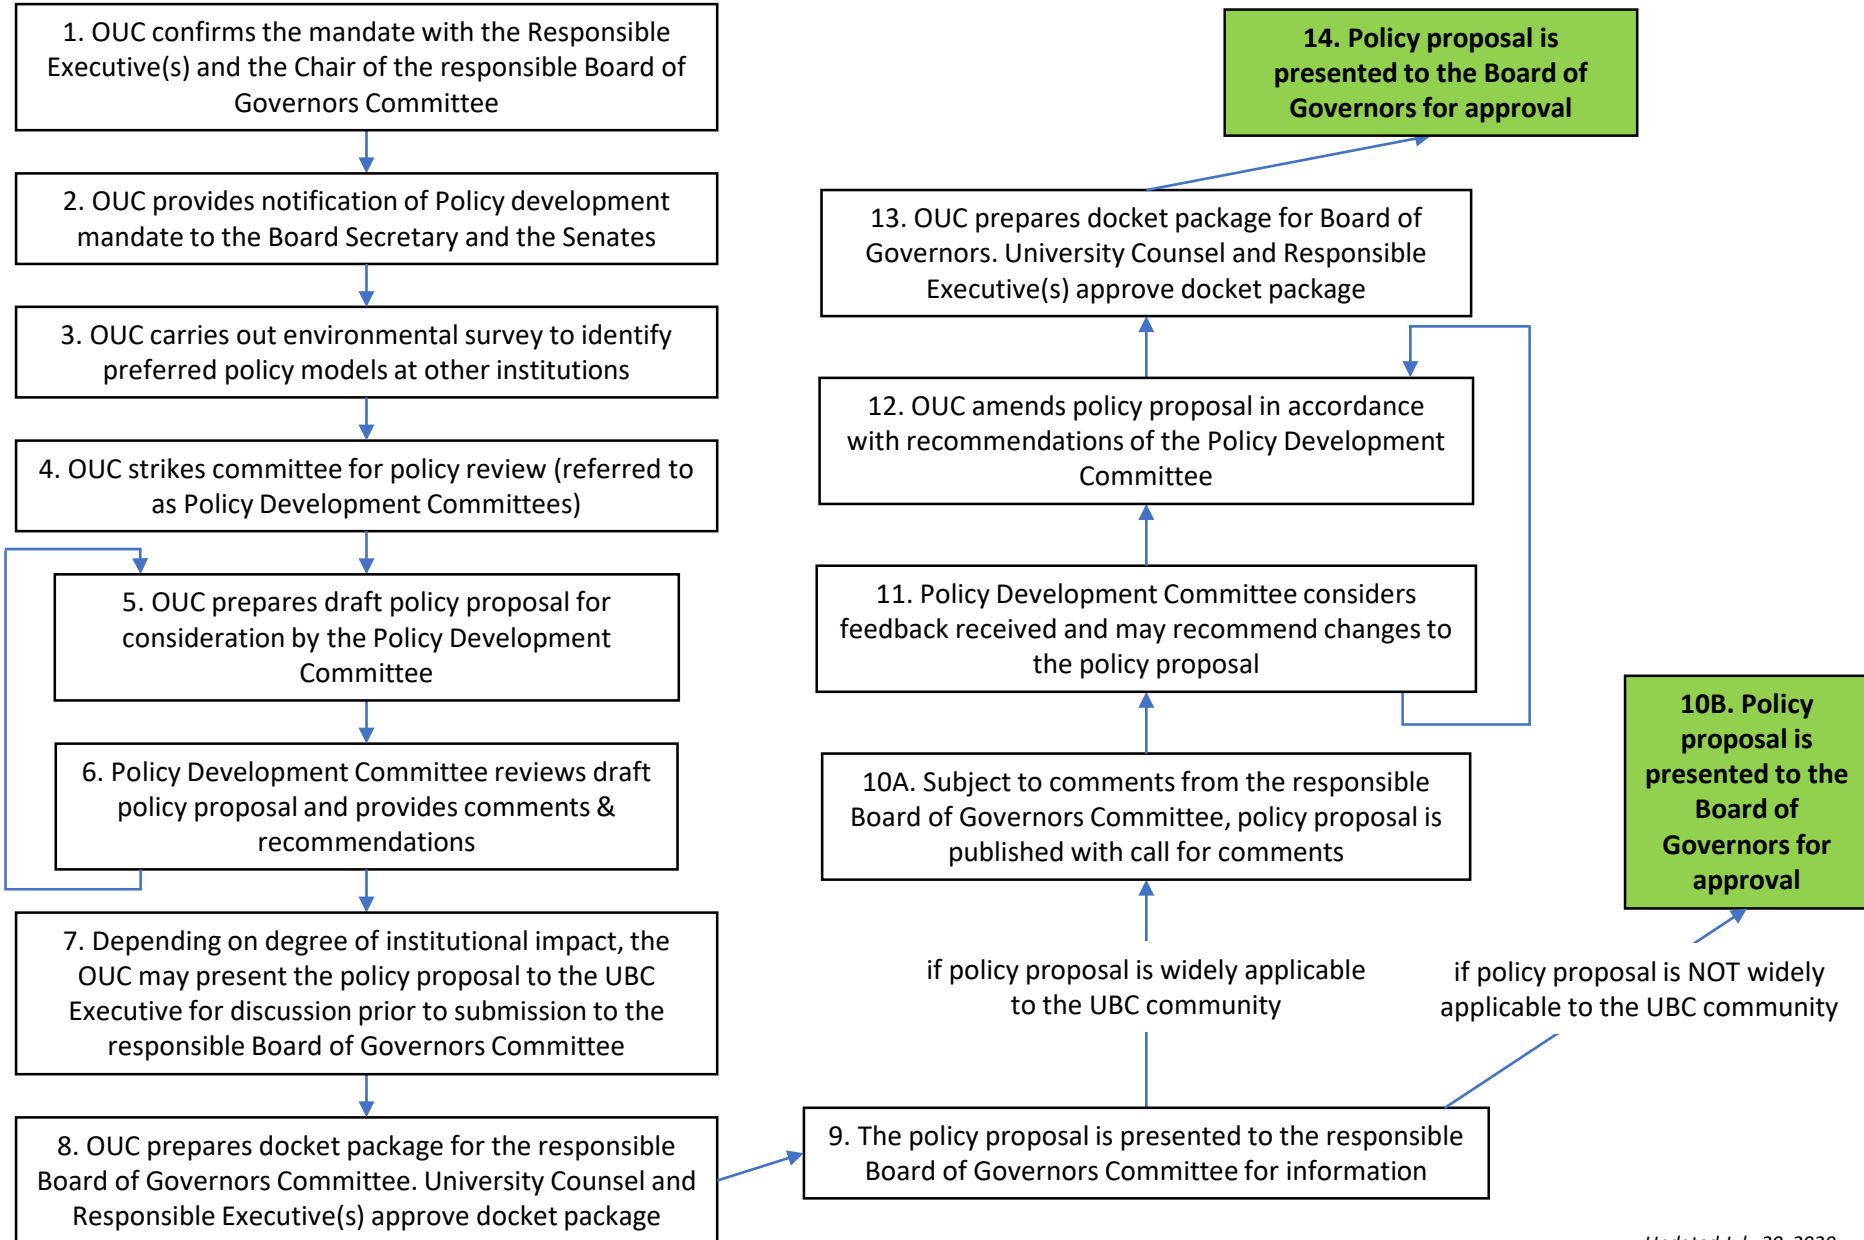

Moving forward, the Office of the University Counsel will be shifting from a biennial cadence for reviewing Policy priorities to a triennial cadence. Most of UBC's Canadian peer institutions conduct their reviews on a five- to ten-year cadence. A triennial cadence will be better aligned with the rhythm of work cycles within the various portfolios across UBC and will remain well within the maximum of five years between reviews required under UBC's Regulatory Framework Policy (GA2).

SUPPLEMENTAL MATERIALS (optional reading for Governors)

1. Policy Development Process Flowchart
2. List of all Board Policies and Distribution by Priority Ranking
3. List of all Board Policies Assigned to the Governance Committee
